### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 11 June 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Receipt is acknowledged of applicants' Continued Prosecution Application filed on June 11, 2002. The Examiner would like to note that no amendment or response to the Final Office Action dated March 18, 2002 was attached to the Request for Continued Prosecution Application.

#### ***Reissue Applications***

Claims 1-4<sup>2</sup> and 10-19 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251 and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

Applicants are seeking a reissue of U.S. Patent Number 5,443,833 issued on August 22, 1995. U.S. Patent Number 5,443,833 contains Claims 1-3, which are drawn to a method of treating a reversible obstructive airway disease. The instant reissue application contains the same three claims as well as Claims 4-13. Claims 4-13 were

Art Unit: 1615

present in the prosecution of the original application but were cancelled after a final rejection filed February 13, 1995. The scope of the Claims 4-13 is broader than Claims 1-3 being that Claims 4-13 are drawn to methods of treating conjunctivitis, keratitis, allergic eyes and anterior uveitis. These claims are drawn to subject matter that was surrendered during the original prosecution of the application.

Applicants' understanding of these facts is evidenced in their Reissue Declarations filed with the instant application, more specifically in Paragraphs 7 and 8 of the Declarations. Therefore, Claims 1-13 cannot be allowed in the instant reissue application because the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

### ***Response to Arguments***

Applicant's arguments filed July 13, 2001 have been fully considered but they are not persuasive. Applicants argue that the instant claims are narrowing in all aspects.

It is the position of the Examiner that the claims admittedly have distinguishing features but these features fail to patentably define or distinguish the claims over the scope of the claims that were cancelled in order to obtain the patent in the parent application.

Art Unit: 1615

Again, the Examiner notes that no amendment or response to the Final Office Action dated March 18, 2002 was attached to the Request for Continued Prosecution Application filed on June 11, 2002.

### ***Conclusion***

This is a Continued Prosecution Application of applicant's earlier Application No. 08/916578. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
